CELLER DE CAPCANES MAS DONIS WHITE

On the cusp of the noble wine regions of Priorat and Montsant, Celler de Capcanes offers an alluring dimension of Catalan wine tradition.

Started as a co-operative in the 1930's when five families got together to vinify all the grapes from this Priorat-area village, Celler de Capcanes drew the attention of the wine world in the early nineties when they started to produce premium Kosher wines for the Jewish community in Barcelona. Today, the Kosher wines, while still very important for the entire winery, represent a small percentage of the overall production. The rest of the wines are not Kosher, just simply outstanding. The quality of the wines produced by Celler de Capcanes with the overwhelming positive international reaction played a huge part in Montsant receiving the DO status in 2001.

Celler de Capcanes brings wines of outstanding value to the enotri family. These begin with an exceptional terroir ranging from 150 m to 600 m above sea level, with highly concentrated deposits of granite, slate, and clay. Today, 68 growers work this bounty of nature. Their fruit of exceptional quality and fidelity to the soil is crafted by a very talented, dedicated enological team consisting of Anna Rovira and Jürgen Wagner.

Vineyard

Capcanes has the privilege of the use of a wide range of different soils and altitudes. The intention is that the wines reflect the characteristics of the land. The soil in the lower elevation vineyards is alluvial while at higher elevations it consists of mineral & stony soils whose base includes granite. The Grenache Blanc comes from 10-25-year-old bush vines. The vines of the Macabeu range in age from 20-40 years. Maximum yield: 1.5 kg per vine.

Wine Making

The grapes for this soft, refreshing white wine are manually harvested in early September. Both varieties – Grenache Blanc and Macabeu – are vinified together in stainless steel tanks. After a temperature controlled fermentation, the wine is aged in stainless steel on fine lees for three months.
