Casale Del Giglio Bellone Lazio Bianco IGT

Casale del Giglio was founded in 1967 by Dino Santarelli. The vineyards are located in a fertile area 50 km south of Rome, a region that had no grape growing or winemaking traditions. When Dino's son Antonio joined the family business in the mid 80's, father and son were able to develop a unique, experimental project with the help of young enologist Paolo Tiefenthaler, working with ancient local grape varieties such as Bellone and Cesanese, but also adding international varieties like Sauvignon, Petit Manseng, and Syrah. The carefully crafted wines are wonderful expressions of the terroir, combining history and innovation.

- The result of the congenial partnership between the Santarelli family and visionary oenologist Paolo Tiefenthaler

### VITICULTURE

The vineyards are located 50 km south of Rome and carefully cultivated under the influence of the Mediterranean to oceanic climate: Hot temperatures in summer and mild, quite rainy winter months combined with a persistent sea-breeze and diurnal temperatures of hot days and cool nights that contributes to a fast ripening process. The more than advantageous climate complemented by the rich, sandy and partly volcanic soils create optimal conditions for viticulture.
